

CAPSULE SUMMARY CT -1161

Hawkins Barn 'B' is located on a small, privately owned farm in Port Republic. This 28 x 48 foot aisle plan barn is oriented on a east-west axis, and has a 24 x 12 foot cinder block stripping room at its northwest corner. The barn is of modern construction, employing circular sawn materials, wire nails, and an original metal roof. Two sets of double doors are located on the east and west ends. Small, ventilating doors are centered in each gable. Single-plank, hinged ventilation doors are located at each rafter along the barn's long axis.

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

Hawkins Barn 'B' is located on the north side of Sixes Road approximately one and a half miles from its intersection with Maryland Route 4. The barn is associated with a small farm. A second barn (CT-1160) stands to the east (and is of earlier date of construction) and a house to the north along a gravel drive. The interior of the barn was not inspected. Tobacco was growing in fields to the north.

This 28 x 48 foot aisle-plan barn is oriented on a east-west axis, and has a 24 x 12 foot cinder block stripping room off its northwest corner. The barn is of modern construction, employing circular sawn materials, and wire nails. The shallow roof is covered with standing seam metal sheets. Fascia boards along the eave prevented a view of the plate, but a flat false plate is expected. Doors are located in the center of each gable. As is typical of aisle-plan barns, two sets of double doors (each measuring ten feet wide) are located along each gable end. Single-plank, side-hinged ventilation doors are located at each rafter along the barn's long axis.

Prepare both a summary paragraph of significance and a general statement of history and support.

This structure is of modern construction post-dating 1900. Directed documentary research may allow determination of a more specific date of construction. As noted above, this structure is significant in the areas of agriculture and transportation. Tobacco's important role in the history of this region is well-known. This barn, like the many others documented during the Calvert Tobacco Barn Survey, shows the continuing importance of tobacco into the modern period. The barn is also significant in the area of transportation as its plan seems to be associated with the introduction of mechanized farm equipment to the region.
